SHOWING IN THE SNELL

WILLIAM DIX PREPARED FOR THE SPRING BOOM.

The Joe Bowers Family at Diamond-Mining Stocks Affected By Approaching Holidays-"It Is a Lulah"-To Work the Showers Consolidated.

Park Valley, in Box Elder county, promises to spring into considerable prominence during the coming year on account of the splendid disclosures of large bodies of high-grade ore made in that section during the past eighteen

that section during the past eighteen months.

The Century, as is well known, is the ploneer property of the camp, and in this mine large zones of good milling gold ore have been uncovered, a new discovery having been reported of late in the lower tunnel en one of the claims of the group, and it is learned that it is the intention of the company to embellish the mine with a ten-stamp mill in the agring, the property to be more extensively developed in the meantime. Whilliam Dix, after the Century people, was the next to recognize the merits of that locality, and he has located a group of six claims adjoining the Century, on each of which he has popened up the veins of mineral, his property embracing a tunnel site, milliste and townsite, so that it will be seen that he is well fixed for the day, when it comes, when Fark Valley vectives the attention it so justly deserves.

On the Snell group, also adjoining the

spening up the veins of mineral, his property embracing a tunnel site, miliste and townsite, so that it will be seen that he is well fixed for the day, when it comes, when Park Valley receives the attention it so justly deserves.

On the Snell group, also adjoining the property owned by Mr. Dix, a splendid body of are is exposed in the bottom of the eighty-foot shaft on the property. At this depth a solid body of mineral eight feet in width has been uncovered in which there is a fourteen or sixteen-inch pay streak which carries values of 2500 to the ton in gold, sliver and lead, while the balance of the ledge will average 1300 to the ton. The New State, ewhed by the Stillman brothers, is also a prospective benanzs and a good body of pay ore in uncovered in it workings, for the treatment of which a mill will be created at or near the mine in the agring.

The White Swan, just above the Century, has a shipment of high-grade

spring.

The White Swan, just above the Century, has a shipment of high-grade ore en route to the Salt Lake market.

It is believed that Park Valley will be the scene of a great deal of activity next summer and quite a number of Salt Lakers are now becoming interested in the mines and prospects of that section.

THE JOE BOWERS FAMILY

Is Cutting Much Ice In Mining Circles, and Prospering Greatly.

cles, and Prospering Greatly.

Cles, and Prospering Greatly.

The Joe Bowers and the Joe Bowers Consolidated Mining companies in the Diamond country, Tinite district, white comparatively newcomers in the mining world of Utah, have been lice conters? ever since they cast their shadows athwart the horizon of mining circles in this city and elsewhere, and this long neglected section is now the "observed of all observers," and more big mining men are strambling to get in on the ground floor on promising mining propositions in that locality than ever before since high-grade ore was first taken from the old mines of that section in the early history of mining in Timic.

Yesterday mention was made of the strike in the Joe Bowers Extension on the 20% to the north. Since then ore from the new find has found its ways to the city, and while its metallic values have not yet been determined by the tests, it is learned that it is very similar in its appearance to the ore extracted years ago from the further Boy mine, which was worth at a pound in silver and gold, and it is believed that as work progresses in the exploration of the Joe Bowers Extension as aplendid body of this class of mineral will be uncovered, and especially so as this ledge is an extension of the Butcher Boy mineral belie.

At the Joe Bowers work is progressing finely and the sowing is such as

Butcher Boy mineral bells

At the Joe Bowers work is progressing finely and the sowing is such as to excite a feeling of admiration in the breast of any mining man could be but see the great chunks of solid and high-grade galenn ore which are being hoisted from the mine, some of the pleces being so large that they completely fill the bucket, and the extraction of this ore is in no way limited excepting in the ability to hole it from the mine, and yet shipments are coming in with pleasing regularity, a consteading the regularity as the sampler yes. signment arriving at the sample years ready while one will put in an appearance today and another one tomorrow, making five carloads for the week of high-grade stuff, while it is learned that after the first of the year Manager J. H. Stallings will send in at least a carload every day, the expectation being that within a month or two the company will begin the payment of regular divitionds.

The success of the Joe Bowers has resulted in the attraction of wide-spired attention to that favgred locality, while at least five companies have been formed during the past six weeks for the purpose of developing prospects in the dimediate vicinity of this embryotic bonaura.

It is expected Maunager Stallings will arrive in the city this morning.

STOCKS ON THE DECLINE.

Approaching Holidays Cause a Slump

In Leading Mining Securities. The near approach of the holidays and the scason of festivities have had

The near approach of the holidays and the season of feativities have had the effect of breaking down the stock market, to a certain extent. In well-informed circles this has been anticipated, as there were many who could realize handsomely on their investments, and who are selling in order to be in share for the proper observance of Christmas and New Year's.

On the floor of the exchange vester-day the hears were lords of the pit, the majority of stocks showing declining exceptions which have something exceptionally groud to offer to the stock-buy-incredible, and hieses recorded guing public, and hieses recorded guing for the call marks before an will touch the great mark before an will touch the great mark before an will touch the great mark before an will touch the great the grea

Shipments to Be Continued—Shut
down of the Bremide Temporary.

(Special Correspondence.)

Vernal, Dec. 19.—Bock Pepe, foreman
of the Unitah Summit mine, informed
The Herald correspondent today that
shipments of ore would continue from
that property, us the showing made
that are was very satisfactory. The
two cars sent to Chicago recently
showed \$4.10 gold and \$5 ounces sitive
to the ton, and \$50 per cent copper.

The tempsters have expressed a preference for handing the ore over the
Price road, and if satisfactory rates
can be secured from Price cast, it is
likely fins the ore will go that way.

Mr. Pope said that the ore would be
gin to move again by Wednesday,
either over one road or the other.

Stering Cotton came over from the
Bromide yesterday and reports the
working of the smelter satisfactory is
a more prospect, but states that, owing
to a miscalculation, it will be necessary to chose down temporarily, owing
to the gestion.

to lack of charcoal. Coke, it seems, is out of the question.

To Work the Showers Consolidated.

The Herald is reliably informed that active work is to begin at once in the extensive development of the Showers. Consolidated mine, which is located at Diamond, between and adjoining the Joe Bowers and the Joe Bowers Extensive development of the Showers have been a single the fallion-Beek on the vest at Diamond, between and adjoining the Joe Bowers and the Joe Bowers Extension properties. J. S. Free, the well-known mining man, having been awarded the contract to sink a double-compartment shaft in the exploration of this valuable property.

Three of the heavy owners of Showers Consolidated stock and J. R. Walker, Jr.—made a visit to the property of the company on Wednesday last and were hospitably entertained by the Joe Bowers can pany. The Herald being informed that while there the members of the party selected the site for the location of the shaft on the Showers Consolidated, which is to be sunk to a derth of 300 feet, at which depth it is believed that the vein will be cut on its dip, and when this is done it is the intention of the company to install a big hoisting the property.

Ballard's Snow Liniment active work is to begin at once in the extensive development of the Showers Connolidated mine, which is located at Diamond, between and adjoining the Joe Bowers and the Joe Bowers Extension properties, J. S. Free, the well-known mining man, having been awarded the contract to sink a double-compartment shaft in the exploration of this valuable property.

Three of the heavy owners of Showers Consolidated stock and officers of the company—M. H. Walker, J. R. Walker and J. R. Walker, Ir.—made a visit to the property of the company on Wednesday last and were hospitably entertained by the Joe Bowers company, The Herald being informed that while there the members of the parity selected the site for the location of the shaft on the Showers Consolidated, which is to be sunk to a denth of 100 feet, at which depth it is believed that the vein will be cut on its dip, and when this is done it is the intention of the company to install a big hoisting plant and to work the mine in a thorough and systematic manner.

The ledge running through the Showers Consolidated group is gigantic in its proportions and crops out of the ground to a height of thirty or forty feet, surface workings beyond a doubt the existence of

its proportions and crops out of the ground to a height of thirty or forty feet, surface workings years ago proving beyond a doubt the existence of large bodies of ore at no great depth, and this fact has also been illustrated by the workings of the Joe Bowers shaft, which is but a short distance removed from the site of the new shaft on the Showers Consolidated.

The Walker party were pleased as well as agreeably surprised at what they saw at the Joe Bowers, the result being that they will be greatly stimulated in carrying on work in the thorough exploration of their prospective bonance.

The Plymouth Rock.

It was learned yesterday that the present showing in the Tintle property of the Plymouth Rock company was

of the Plymouth Rock company was such as to lead to the belief that it would not be long before this mine could be classed among the regular shippers of Silver City.

This group adjoins the Yankee on the southeast and in the 300-foot shaft a 30-foot cross-cut to the east has cut into the hanging wall of the ledge, exposing some fine-looking vein matter, and the indications are that before the other wall is reached a nice body of pay mineral will be found.

The Gulch, Little Clarissa and the Primrose veins all cut through the Primrose v

The West Cable Will Resume. The Herald is informed that the West

where of a large and promising group of patented claims at Eureka, will returne work at an early date in the development of this ground, which entrons within its boundary lines two vell-defined and strong mineral zones, he property being down the guich but short distance from the bonanza protucers of Eureka.

a short distance from the bonama profincers of Eureka.

A shaft has already been sunk to a
lepth of 500 feet in the development
of the West Cable. The property is
well equipped with hoist and necessary
machinery, and when work is resumed
it will be with the aid of machine drills,
the use of which will speed the day
when the crossours from the shaft will
lisolose the one bodies confidently beleaved to wrist within the hoidings of

se made to list the West Cable on the ooard of the stock exchange.

Big Deal In Northern Light. A big deal in Northern Light was onsummated in this city yesterday, 5,000 shares of the stock of the com-

25,000 shares of the stock of the company puszing into the hands of a local syndicate of mining men and mining stock investors at a stiff figure, the buyers thereby showing their faith and confidence in the ultimate outcome of this Lion hill mine.

This block of stock, it is understood, came from the east and was sent to one of the solid banking institutions of Salt Lake with instructions to sell at or near the market price, the result being as above indicated.

NO CHAIRS FOR OPERA HOUSE.

NO CHAIRS FOR OPERA HOUSE. Hence Anger of Park City Amuse-

ment-lovers. (Special Correspondence.)
Park City, Dec. 2.—This C. T. Webber company of Chicago, who secured the contract for scaling the new opera house and the new M. E. church is just now receiving the condemnation of uninserment. and the new M. E. church is just now receiving the condemnation of annisement loving and charch-going people. The firm agreed to have the chairs for both pinces not later than Nov. 15, but as yet no word has been received regarding them. Numerous relegrams have been sent to the firm, which full to bring response, and even the representative of the house, who resides in Sant Lake, is ignored and his inquiries remain unanswered. Manager McLauphilo has been competed to cancel several first-class nitractions that were approximated to make booked for the operations, and is untained to make bookings, owing to the insection of the control of the chairs. Mr. Iyers, the sweer of the opera house is seriously timining of sung the outlit for damages.

CHAPTER OFFICERS INSTALLED. Interesting Masonic Ceremonies at Park City.

Park City.

(Special Correspondence.)

Park City, Dec. 22.—Ontario chapter No. 2, H. A. M., at its requier meeting instinate elected and instaled the following officers for the ensuing year: George W. Groo, H. P.; James W. Felrson, K.; F. A. McSariy, arribe: Waiter Secti, treasure; John W. Grier, recorder: Christop H., Willier, C., of H.; Charles Sheida, P. S.; George W. Guillver, H. A. C., Eric J. Johnson, M. of Unit V.; John Deim, M. of second V.; George Moulding, M. of first V.; H. E. W. Cheelus sentinel.

After the installation the retiring high priest. George W. Guillver, G. of which he thanked his brethrea in a teat and well worded speech. Refreshments were then served and, as is usual with this particular chapter, a joylal time was indulged in.

DEPUTIES IN SANPETE.

Probability That Republicans Will Not Live Up to Promises.

(Special Correspondence.)
Manti, Dec. II.—Netwithstanding the fact that the Republicans of this county waged a campaign against the employment of deputies, and charged the Democrats with having a horde of deputies awarming around the court house, present

they will do me better in that respect. Al-ready there are winsperings of deputies and applications for some public sept ere-heard among the faithful. It is conceded the officers cannot do the work, and the employment of extra help will be the first important item of business. Upon sood authority it is said that this deputy clerk, recorder, assessor and treasurer, have already been selected by the officers-elect and only await the golden day of Jan. 2, 189, when the appointment will be announced to an anxious public.

Epidemic Stopped at Last.

Epidemic Stopped at Last.

(Special Correspondence.)

work in the coal mines. Batasin Flaim was struck a severe blow on the head by a flying piece of coal, which cut a serious gash in his scalp, necessitating several siliches to close it up.
James Telesco also not badly cut and bruised about the head yesterday affermon by some role fulling ulou him. His injuries are not considered serious.

Horse Killed While Speeding.

(Special Currespondence.)
Logun, Dec. 22—A serious collision occurred on Main street last eventing, as a risult of which a horse belonging to Andrew Moser of the Fifth ward was instantly kined. For years it has been the practice of people possessing fast horses to speed them along that part of Main street porth of the court bouse, and since the last fail of snow which made excellent sleighing, raises have been frequent. About a o'clock hast evening Mr. Moser was returning home, driving a team attached to a pair of sleds. When opposite the court house he mot Mr. George Smith, who was riding with a lady companion in a cutter and was traveling at a pretty lively city. Both rics turned first to one side of the road and then to the other, and finally collided with one another. The shaft of the cutter struck Moser's "off horse and penetrated its body to a depth of saxteen or eighteen inches. The animal dropped stone dead. Both occupants of the cutter were hurled out of it with considerable force, but no bifures resulted, nor was anything broken on either of the rigs.
